

Your Bottom Line Matters.

REVSTREAM

by CINC Systems

Management companies perform hard work for boards and homeowners. Far too often, though, this work is left unaccounted for and billing is often missed.

By automating management contracts, RevStream ensures that every dime is accounted for and collected, ensuring revenue and margins are healthy.

How It Works:

1

Billable items are automatically counted.

2

RevStream creates the invoice for you.

3

You approve the invoice and ensure all revenue is captured.

“Through RevStream I am making on average 30% more in additional revenue every month.”

Brad Van Rooyan, HomeRiver Group
